Mud Daubers, Red Flour Beetles,
Rice Weevils, Sawtoothed Grain
Beetles, Silverfish, Small Flying
Moths, Sowbugs, Spiders, Stable
Flies, Ticks and Wasps.

FOR USE IN AND AROUND:
Campgrounds, Food Storage Areas,
Homes, Hospitals, Hotels, Food
Processing Plants, Nursing Homes
Resorts, Restaurants and other
Food Handling Establishments
Schools, Supermarkets, Transportation
Equipment (Buses, Boats, Ships, Trains
Trucks), Utilities, Warehouses, and
other Commercial and
Industrial Buildings.

ACTIVE INGREDIENTS:

Pyrethrins	0.50%
* Piperonyl Butoxide, Technical	1.00%
** N-Octyl Bicycloheptene Dicarboximide	1.67%
OTHER INGREDIENTS	96.83%
	100.00%

* Equivalent to 0.8% (Butylcarbyl) (6-Propylpiperonyl) Ether
and 0.2% Related Compounds

** MGK® 264, Insecticide Synergist

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back for additional precautionary statements.

NET. WT. 17 OZ.

SPECIMEN LABEL

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if inhaled. Avoid breathing vapor or spray mist. Remove and wash contaminated clothing before reuse.

FIRST AID

- IF SWALLOWED:**
- Immediately call a poison control center or doctor.
 - Do not induce vomiting unless told to do so by a poison control center or doctor.
 - Do not give any liquid to the person.
 - Do not give anything by mouth to an unconscious person.

- IF INHALED:**
- Move person to fresh air.
 - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
 - Call a poison control center or doctor or for further treatment advice.

NOTE TO

- PHYSICIAN:**
- Vomiting may cause aspiration pneumonia.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use near or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in electrical equipment (where there is exposed wiring or contact points) due to possibility of short circuits and shock hazard. Do not spray on plastic, painted, or varnished surfaces or directly into any electronic equipment such as radios, televisions, computers, etc.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is recommended for use as an aid for inspections, to determine the presence of insects, their locations and an indication of the size and distribution of the infestation. It provides rapid kill of insects contacted.

Do not remain in treated area and ventilate the area after treatment is completed.

Do not contaminate water, food, or foodstuffs.

Remove all pets and birds.

For aquariums, remove or cover and turn off air pumps (if conditions permit).

IN HOSPITALS: Remove patients prior to treating the facility. Ventilate area for two hours prior to returning patients.

FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS: Foods should be removed or covered during general volumetric treatment. After general volumetric treatment, all food processing surfaces and equipment should be thoroughly washed with an effective cleaning compound followed by a potable water rinse before using. Careful crack and crevice application for inspection purposes is permissible at all times. In food handling establishments, do not apply as a space spray while food processing is underway.

CRACKS, CREVICES AND CLOSED VOIDS:

Inject PYROCIDÉ® Flusher™ into cracks and crevices or closed void areas where insects may be harboring, living or breeding. For cracks, crevices, holes and other small openings, inject approximately one-second of product. For closed voids calculate the void's cubic volume and treat at the rate of five to ten seconds per three cubic feet. For inaccessible voids drill small holes and inject product. Several holes may be required in longrunning voids. Insects that are contacted will be driven from their harborage sites.

DIRECTED CONTACT:

Direct PYROCIDÉ® Flusher™ into open void areas in and/or around equipment, stored items, stoves, cabinets, cooking equipment, washers, dryers and refrigerators. Other areas that may be inspected are void areas around stored food, cleaning supplies, attics and crawl spaces. Directed contact applications may be made in these sites. For directed contact applications, release 1 to 3 seconds of product per inspection site. Insects that are contacted will be driven from their harborage sites. For directed contact applications on exposed surfaces, apply PYROCIDÉ® Flusher™ from a distance of at least 18 inches.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool area away from heat or open flame.

PESTICIDE DISPOSAL: Waste resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Replace cap and discard empty container in trash, sanitary landfill, or by other approved state and local procedures. Do not puncture or incinerate.

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.
